

SOFTWARE REQUIREMENTS SPECIFICATION

Hikkaduwa Multi-Purpose Co-operative Society Ltd.

Integrated Banking & Financial Management System

Document Version:

1.0

Date:

April 23, 2026

Organization:

Hikkaduwa Multi-Purpose Co-operative Society Ltd.

Document Type:

Software Requirements Specification (SRS)

Classification:

Confidential

1. Introduction

1.1 Purpose

This Software Requirements Specification (SRS) document describes the functional and non-functional requirements for the Integrated Banking & Financial Management System for the Hikkaduwa Multi-Purpose Co-operative Society Ltd. (hereinafter referred to as 'the Society' or 'HMCS'). The system is intended to digitize and automate all current manual banking operations across all branches of the Society, replacing paper-based processes with a centralized, web-based platform.

1.2 Scope

The HMCS Banking System will be a fully web-based application accessible from all 8 branches of the Society. The system will cover:

- Member registration and account management
- Savings account operations (deposits, withdrawals, passbook management)
- Fixed deposit (FD) account management
- Children's savings account management
- Loan origination, processing, approval, and repayment tracking
- Pawning (gold loan) operations
- Inter-branch linkage and data consolidation
- Reporting and end-of-day reconciliation
- Insurance integration (life insurance coverage on savings)

1.3 Definitions, Acronyms, and Abbreviations

Term / Acronym	Definition
HMCS	Hikkaduwa Multi-Purpose Co-operative Society Ltd.
SRS	Software Requirements Specification

Term / Acronym	Definition
FD	Fixed Deposit
NIC	National Identity Card (Sri Lanka)
EMI	Equated Monthly Installment
MPCS	Multi-Purpose Co-operative Society
UI	User Interface
API	Application Programming Interface
SL	Sri Lanka
p.a.	Per Annum (per year)
DXA	Document XML Architecture (unit of measurement)

1.4 References

- Requirements gathered on-site at HMCS Hikkaduwa branch – April 22, 2026
- Manual loan calculation worksheets (handwritten notes)
- Co-op Rural Bank Pawn Ticket
- Fixed Deposit Application Form
- Loan Application Forms
- Employee Emergency Loan Request Form
- Loan Guarantee / Surety Details Form
- Member Declaration Form (Apekaru Prakaashaya)
- Regulations for Withdrawal of Money (14-point document)
- Loan Plan Application Form
- Loan Ledger / Portfolio register (handwritten register book)
- Notes on loan types, interest rates, and FD rates (handwritten)
- Pawn ticket terms and conditions document

1.5 Overview

This document is organized as follows:

- Section 2 describes the existing manual system in detail.
- Section 3 provides the overall system description.
- Sections 4 through 8 detail the functional requirements, non-functional requirements, system constraints, and other relevant specifications.

2. Current Manual System Analysis

All operations at HMCS are currently performed entirely manually using paper-based forms, ledger books, and manual calculations. The following subsections describe each process in detail as observed and gathered from the team.

2.1 Organizational Structure

The Society operates across 8 branches that currently function independently. Each branch maintains its own ledger books and paper records. There is no centralized data system linking branches. The key roles identified include:

- General Manager / Secretary (Samanyadhikari)
- Bank Service Manager (Bankuwa Sewa Kalamanakaruge)
- Branch Manager (Kalamanakaruge)
- Senior Officer / Field Officer (Shenu Niladhariyage)
- Valuer (Thaksarukaruge) – for pawning
- Committee Members (for loan approval committees)

2.2 Member Registration (Manual Process)

New members are registered manually using paper forms. The data collected includes:

- Full name (in Sinhala and/or Tamil)
- National Identity Card (NIC) number
- Date of birth
- Gender (Male/Female)
- Address
- Telephone number
- Marital status (Married/Unmarried)
- Membership number assigned manually
- Province / Electoral division

- Savings account number
- Whether the member belongs to another co-operative society

The member number is written manually into ledger books and into individual forms. A share amount is also recorded for each member.

2.3 Savings Accounts (Manual Process)

Savings accounts are managed using a combination of individual passbooks and ledger registers.

The process observed:

- Each member receives a physical passbook (Stira Thaanpath)
- Every deposit and withdrawal is manually entered in the passbook and in the ledger
- The savings account number is linked to the member's name and NIC
- Balances are updated manually after each transaction
- Interest is calculated and credited manually on a periodic basis

The Fixed Deposit (FD) application form (Form 1105) is used for opening fixed deposit accounts.

It collects:

- Full name, age, date of birth, address
- Principal amount (in words and figures)
- Interest rate (Poli Anupathika / Wattu Vitham) and period
- Signature of the account holder
- Manager and officer endorsements
- Deposit reference number

2.4 Fixed Deposit Accounts (Manual Process)

FD accounts are opened using a specialized application form (Form No. 1105, Page 1105). The FD passbook (Stira Thaanpath Illumeepatha) is issued as the certificate.

Key details from the notes gathered:

- FD interest rate: 8% p.a. base rate + 2.5% bonus = 10.5% effective rate

- FD loan against fixed deposit: up to 85% of FD value (e.g., Rs. 100,000 FD gives Rs. 85,000 loan)
- FD certificates are issued with serial numbers
- Two witness signatures required on FD documents
- FD terms range from short to long periods

2.5 Children's Savings Account (Manual Process)

A special savings account for children (Daruwange Ginum) exists with the following characteristics:

- Cannot withdraw funds until the child reaches 18 years of age
- Withdrawal before 18 years is allowed only under special circumstances
- To open: requires birth certificate and guardian's NIC
- Daily updates are displayed at the end of banking hours

2.6 Loan Products (Manual Process)

The Society offers multiple loan types. All loan applications go through a multi-step manual approval process. The following loan types were identified:

2.6.1 Loan Types Identified

Loan Type	Max Amount	Max Term	Notes
Normal Loan (Samanaya Rna)	Rs. 500,000	5 years	Standard member loan
Small Loan (Below Rs. 200,000)	Rs. 200,000	3 years (36 months)	Smaller limit loans
Business Loan (Vyaparika Rna)	Based on assessment	Per agreement	For business purposes

Loan Type	Max Amount	Max Term	Notes
Employee Emergency Loan (Sewaka Apada Rna)	Per salary basis	Per agreement	For employees only
FD-Backed Loan	Up to 85% of FD	Per FD term	Fixed deposit as collateral
MPCS Loan	Variable	Variable	Society-specific loan
Social Loan (Samajiyo Rna)	Variable	Variable	Social welfare purpose
Service Loan (Sewaka Rna)	Variable	Per employment	Linked to employment
Production/Agriculture Loan	Variable	Per crop cycle	Agricultural purposes

2.6.2 Loan Interest Rate Calculation (Manual)

Interest is calculated manually using the following formula observed in the handwritten calculation sheets:

Formula: Interest = (Principal × Days × Rate%) ÷ 36,500

Example calculations documented in the notes:

- Loan of Rs. 100,000 for 30 days at 25%: $100,000 \times 30 \times 25 \div 36,500 = \text{Rs. } 2,055/-$
- Monthly installment of Rs. 2,600/- (= $100,000 \div 36$ months for a 3-year loan)
- Loan of Rs. 97,200 (net disbursed) $\times 25 \times 25 \div 36,500 = \text{Rs. } 1,664/-$
- For group loans (e.g., 31 members + 28 members = 59 total): $100,000 \times 59 \times 25 \div 36,500 = \text{Rs. } 4,041/-$

2.6.3 Loan Application Process (Manual)

The manual loan application goes through the following sequential steps:

1. Borrower submits the Loan Application Form (Form 1108) to branch
2. Loan application includes: full name, address, NIC, member number, loan amount, purpose, repayment schedule, guarantor details
3. Guarantors (at least 2) provide their details and sign guarantor declaration forms
4. Field officer visits the applicant and verifies assets (land, buildings, vehicles, animals, other)
5. Asset valuation table is filled: type, estimated value, bank registered amount, savings account, FD, fixed assets
6. Annual income and expenditure details are documented
7. Existing loan details from the applicant and guarantors are verified
8. Regional Committee reviews and provides recommendation
9. Branch Manager / Senior Officer recommends or rejects
10. Bank Service Manager issues final directive
11. Loan Committee (5 members) approves
12. Chairman and Secretary sign the final approval
13. Loan is disbursed and recorded in the ledger book

2.6.4 Loan Portfolio Ledger (Manual)

A large hand-written ledger book records all active loans by loan type. The register observed contained the following loan categories with member counts and outstanding balances:

അനുബന്ധം

2.7 Pawning Operations (Manual Process)

The Society operates a gold-pawning service through the Co-op Rural Bank facility. The process observed:

- Customer brings gold articles to the branch
- Valuer (Thaksarukaruge) weighs gold and determines purity (2.2 grams observed for Rs. 30,000 advance)
- A Pawn Ticket is issued with: ticket number, date, member NIC, member number, article description, weight, net weight, interest rate, assessed value, and pawning advance amount
- Interest rate: 13% p.a. (from pawn ticket No. 698594 dated 2025.11.06)
- Pawning advance repayable within one year
- Co-op Rural Bank has right of sale under Sec. 85 of Mortgage Act if not redeemed
- Pawn ticket must be surrendered to redeem gold
- Lost pawn ticket requires an affidavit approved by the Bank
- Redemption form is on the reverse of the pawn ticket

2.8 Regulations for Fund Withdrawal (Manual)

A 14-point regulation document governs how members withdraw money from the Society. Key regulations identified:

- Withdrawal requests are processed through the cooperative society during scheduled times
- A minimum balance must be maintained as per regulations
- Withdrawals require proper forms with witness signatures
- Members must be physically present or provide duly authorized letters
- Monthly withdrawal limits apply to certain account types
- Special withdrawal requests require committee approval
- Interest accrues from April to June and October to December quarterly
- Passbook must be presented for all withdrawals
- If depositor and withdrawer differ, one must sign and the other countersign

- Withdrawal of entire balance (closing account) requires notice
- Members who are deceased: survivors entitled to funds per legal provisions
- Passport required as identification for foreign nationals
- Society reserves right to alter interest rates without notice

2.9 Employee Emergency Loan (Manual)

A specific form (Sewaka Apada Rna Illumeepatha) is used for employee emergency loans. Fields include:

- Name, member/share number, designation, address
- Loan amount requested
- Guarantor 1 and Guarantor 2 details (name and address)
- Monthly salary deduction authorization
- Office use section: membership number, salary verification, dues check, salary deduction percentage (40% limit), rural bank loan status

2.10 Inter-Branch Operations

Currently the 8 branches operate completely independently with no data linkage. Based on requirements gathered:

- All 8 branches need to be linked together in the new system
- Daily updates should display consolidated data at end-of-banking-hours
- Branch-specific data must remain identifiable while being centrally accessible

2.11 Insurance Coverage

The Society provides life insurance coverage tied to savings accounts:

- Insurance is provided through an insurance partner for savings account holders
- When a member dies, their outstanding loan amount is covered by insurance
- Survivors receive the remaining savings balance

- The interest rate used for insurance calculations needs to be displayed and managed
- Insurance premium is factored into the loan/savings interest rate

3. System Overview

3.1 System Perspective

The HMCS Integrated Banking System is a new, standalone web-based application that will replace all current manual processes. It will be a multi-branch system with a centralized database accessible from all 8 branch locations. The system will interface with user terminals at each branch, with role-based access for different staff categories.

3.2 System Architecture

- Web-based application (accessible via browser from any branch)
- Centralized server-side database (PostgreSQL or MySQL)
- RESTful API backend (Node.js / Laravel / Django)
- Responsive frontend (React.js or similar)
- Role-based access control (RBAC)
- Data backup and disaster recovery
- SSL encryption for all data in transit

3.3 User Classes and Characteristics

User Role	Access Level	Key Responsibilities
System Administrator	Full system access	User management, system configuration, backups
General Manager / Secretary	All branches, all reports	Policy decisions, final approvals, reporting
Branch Manager	Branch-level all access	Loan approvals, branch reporting, staff management
Bank Service Manager	Loan committee decisions	Loan directives, compliance

User Role	Access Level	Key Responsibilities
Senior/Field Officer	Loan processing, member data	Loan investigation, member visits, data entry
Teller / Counter Staff	Transactions only	Deposits, withdrawals, passbook printing
Valuer	Pawning module only	Gold valuation, pawn ticket issuance
Loan Committee Member	View and approve assigned loans	Loan committee decisions

3.4 General Constraints

- The system must support Sinhala and English languages in the user interface
- All 8 branches must be accessible simultaneously
- System must handle concurrent users from multiple branches
- Data must be backed up daily
- System must be available during all banking hours (minimum 99% uptime)
- All financial calculations must be accurate to 2 decimal places

4. Functional Requirements

4.1 Member Management Module

FR-MM-01: Member Registration

- System shall allow registration of new members with all required fields
- Fields: Full name, NIC number, date of birth, gender, address, telephone, marital status, membership type
- System shall auto-generate a unique member number
- System shall validate NIC number format and uniqueness
- System shall capture photograph and signature (digital upload)
- System shall track the branch where the member registered
- System shall record share amount paid

FR-MM-02: Member Search and Profile

- System shall support search by name, NIC, membership number, telephone
- System shall display complete member profile with all linked accounts and loans
- System shall show member's outstanding loan amounts, savings balances, FD details

FR-MM-03: Member Update and Status

- System shall allow update of member contact and personal information
- System shall support member status changes (Active, Inactive, Deceased, Expelled)
- System shall record deceased member details for insurance claim processing

4.2 Savings Account Module

FR-SA-01: Account Opening

- System shall allow opening of savings accounts linked to a member
- System shall generate a unique account number

- System shall record initial deposit amount
- System shall record account type (Normal Savings, Children's Savings)
- For children's accounts: record date of birth and guardian details, enforce 18-year lock
- System shall generate a digital passbook entry

FR-SA-02: Deposits

- System shall allow cash deposits to savings accounts
- System shall record: date, amount, transaction reference, teller ID
- System shall update account balance immediately
- System shall print/display passbook entry

FR-SA-03: Withdrawals

- System shall allow cash withdrawals subject to balance and regulatory limits
- System shall enforce minimum balance rules
- System shall enforce children's account age restriction (no withdrawal before 18 years unless special approval)
- System shall require manager override for large withdrawals
- System shall record witness/authorized officer for each withdrawal
- System shall enforce monthly withdrawal limits where applicable

FR-SA-04: Interest Calculation

- System shall automatically calculate and credit interest on savings accounts
- Interest credited quarterly (April–June and October–December periods)
- System shall use the current applicable interest rate configured by management
- System shall generate interest credit entries in the passbook

FR-SA-05: Account Statement

- System shall generate account statements for any date range
- Statements shall show: date, transaction type, debit, credit, balance

4.3 Fixed Deposit Module

FR-FD-01: FD Account Opening

- System shall support FD account opening with all fields from Form 1105
- Fields: Member name, NIC, date of birth, address, principal amount, interest rate, term, period
- System shall auto-generate FD certificate number
- System shall record two witness signatures (digitally confirmed)
- System shall support manager and officer endorsements
- System shall calculate maturity date based on term

FR-FD-02: FD Interest Management

- System shall apply 8% base rate + 2.5% bonus = 10.5% effective rate (configurable by admin)
- System shall calculate interest accrual daily
- System shall credit interest at maturity or at periodic intervals as configured
- System shall alert branch when FD is approaching maturity

FR-FD-03: FD Loan (Loan Against FD)

- System shall allow loan application against FD with up to 85% of FD value
- Example: Rs. 100,000 FD → maximum loan of Rs. 85,000
- System shall automatically link the FD as collateral to the loan
- System shall prevent FD withdrawal while a loan against it is outstanding

FR-FD-04: FD Redemption

- System shall process FD redemption at maturity or premature closure
- Premature closure shall apply penalty interest as configured
- System shall release collateral lien upon full loan repayment

4.4 Children's Savings Account Module

FR-CS-01: Children's Account Management

- System shall enforce that withdrawals are not permitted until the account holder turns 18 years
- System shall automatically calculate the eligible withdrawal date from date of birth
- For special circumstance withdrawal before 18 years: system shall require branch manager approval with documented reason
- Required documents for account opening: birth certificate reference and parent/guardian NIC
- System shall display balance at end of each banking day

4.5 Loan Management Module

FR-LM-01: Loan Application

- System shall provide a digital loan application form capturing all fields from Form 1108 and Loan Plan Application Form
- Applicant fields: Full name, address, NIC, member number, province, loan amount requested, loan purpose, repayment period
- Existing loan details: other loans outstanding (lender name, institution, amount)
- Financial information: main occupation, other income, annual income and expenditure
- Asset details: land (high/mid), buildings, vehicles, animals, other assets with assessed values and bank-registered amounts
- System shall allow upload of supporting documents

FR-LM-02: Guarantor Management

- System shall capture at least 2 guarantors per loan
- Guarantor fields: Full name, address, NIC, relationship, bank account details, existing loan details
- System shall capture guarantor's asset details (land, vehicles, FD, savings)
- Guarantors must confirm digitally (electronic signature or OTP)

FR-LM-03: Loan Interest Calculation

System shall implement the formula: $\text{Interest} = (\text{Principal} \times \text{Days} \times \text{Rate}\%) \div 36,500$

- System shall calculate daily interest accrual automatically
- System shall display EMI (monthly installment) calculation:
 - For 36-month loans: $\text{EMI} = \text{Principal} \div 36$ (e.g., Rs. 100,000 → Rs. 2,778/month)
- System shall show interest portion vs. principal portion for each installment
- System shall handle different loan periods: 10 months, 36 months, 60 months (5 years)
- For small loans (< Rs. 200,000): 36-month maximum term
- For normal loans (up to Rs. 500,000): 60-month maximum term

FR-LM-04: Loan Approval Workflow

- System shall support multi-stage loan approval workflow:
 - Stage 1: Application submission by member/staff
 - Stage 2: Field officer verification and asset investigation report
 - Stage 3: Regional committee recommendation
 - Stage 4: Branch Manager / Senior Officer recommendation
 - Stage 5: Bank Service Manager directive
 - Stage 6: Loan committee (5-member) vote and approval
 - Stage 7: Chairman and Secretary final signature
 - Stage 8: Loan disbursement
- System shall notify relevant approvers at each stage via dashboard alerts

- System shall record all approvals, rejections, and comments with timestamps and user IDs

FR-LM-05: Loan Disbursement

- System shall record disbursement date, amount, and disbursing officer
- System shall generate loan account number
- System shall produce a loan agreement document for signing
- System shall update the loan ledger automatically

FR-LM-06: Loan Repayment Tracking

- System shall record each repayment installment with date, amount, principal portion, interest portion
- System shall calculate outstanding balance after each payment
- System shall generate repayment schedule at disbursement
- System shall send overdue alerts to branch staff
- System shall calculate penalty interest for late payments
- System shall support partial and full prepayment

FR-LM-07: Employee Emergency Loan

- Separate module for employee emergency loan applications
- Fields from Sewaka Apada Rna Illumeepatha form: name, member number, designation, address, loan amount, guarantor details
- System shall verify monthly salary and calculate allowable deduction (max 40% of salary)
- System shall check if Rural Bank loan outstanding
- System shall verify salary regularity before approval
- Repayment is via monthly salary deduction

FR-LM-08: Loan Types Configuration

- Admin shall be able to configure loan types with: name, maximum amount, maximum term, interest rate, eligibility criteria
- Loan types include: Normal, Business, Social, Service, Employee Emergency, FD-Backed, MPCS, Agriculture/Production, Investment

4.6 Pawning (Gold Loan) Module

FR-PW-01: Pawn Ticket Issuance

- System shall create a digital pawn ticket equivalent to the Co-op Rural Bank Pawn Ticket
- Fields: Ticket number (auto-generated), branch, date, pawner name and address, NIC, member number, telephone
- Article details: description, gross weight (grams), net weight (grams), assessed value
- Pawning advance amount (in words and figures)
- Interest rate: 13% p.a. (configurable)
- Pawner and authorized officer digital signatures
- Valuer signature/ID

FR-PW-02: Pawn Interest and Repayment

- System shall calculate interest daily at 13% p.a.: $\text{Interest} = (\text{Amount} \times \text{Days} \times 13) \div 36,500$
- Pawn advance repayable within 1 year
- System shall display total amount due (principal + interest) at redemption
- System shall alert 30 days before expiry of 1-year period

FR-PW-03: Pawn Redemption

- System shall process pawn redemption upon full payment
- System shall mark gold articles as released
- System shall generate redemption receipt
- Lost pawn ticket process: system shall require scanned affidavit upload and manager approval

- Deceased pawner: system shall require legal documentation for heirs

FR-PW-04: Pawn Auction

- System shall flag pawned items overdue beyond 1 year for potential auction
- System shall record auction details if item is sold

4.7 Reporting Module

FR-RP-01: Daily End-of-Day Reports

- System shall generate a daily consolidated report for each branch at banking close
- Report includes: total deposits, total withdrawals, loan disbursements, loan collections, pawn advances, pawn redemptions, net cash position

FR-RP-02: Loan Portfolio Report

- System shall generate loan portfolio reports by loan type
- Report shows: number of active loans, total outstanding, overdue amounts, NPL (Non-Performing Loan) status
- System shall replicate the manual ledger register in digital format

FR-RP-03: Member Reports

- Member-wise statement of all accounts and loans
- New member registrations by period

FR-RP-04: Financial Reports

- Trial balance
- Income and expenditure statement
- Balance sheet

- Interest income report

FR-RP-05: Branch Consolidated Reports

- Multi-branch consolidated reports accessible by General Manager
- Branch performance comparison
- Inter-branch loan summary

4.8 Insurance Module

FR-IN-01: Life Insurance Tracking

- System shall record insurance policy details linked to member savings accounts
- System shall track insurance premium deductions
- On member death: system shall generate insurance claim initiation workflow
- System shall calculate outstanding loan balance to be covered by insurance
- System shall calculate net savings balance payable to heirs

FR-IN-02: Insurance Rate Management

- Admin shall configure insurance rate (currently 2% of applicable amount)
- System shall display current insurance rates to members on request

4.9 User Authentication and Authorization

- System shall require username and password for all users
- System shall implement role-based access control (RBAC)
- System shall enforce password policies (minimum length, complexity, expiry)
- System shall log all user actions with timestamp and user ID
- System shall support session timeout after inactivity
- System shall support password reset via administrator

4.10 Multi-Branch Management

- System shall link all 8 branches under a single centralized database
- Branch-specific data shall be tagged with branch identifier
- Users shall only see data for their assigned branch (unless given cross-branch access)
- General Manager shall have access to all branch data
- System shall support branch-to-branch loan transfers if applicable
- Daily end-of-day data consolidation across all branches

5. Non-Functional Requirements

5.1 Performance Requirements

- System shall respond to standard queries within 3 seconds
- System shall support at least 50 concurrent users across all branches
- Batch processing (end-of-day interest calculations) shall complete within 30 minutes
- Reports shall generate within 10 seconds for standard date ranges

5.2 Security Requirements

- All data transmission shall use HTTPS/TLS encryption
- Passwords shall be stored using bcrypt or equivalent hashing
- System shall implement SQL injection and XSS protection
- Sensitive financial data shall be encrypted at rest
- System shall maintain a full audit log of all financial transactions
- Failed login attempts shall be locked after 5 consecutive failures
- Session tokens shall expire after 30 minutes of inactivity

5.3 Reliability and Availability

- System shall achieve 99.5% uptime during banking hours (8 AM – 5 PM)
- System shall perform automatic daily database backups
- System shall include failover capability
- Recovery Time Objective (RTO): within 4 hours of failure
- Recovery Point Objective (RPO): maximum 24-hour data loss tolerance

5.4 Usability Requirements

- System UI shall be available in Sinhala and English

- System shall be accessible via standard web browsers (Chrome, Firefox, Edge)
- UI shall be intuitive for non-technical bank tellers
- System shall provide contextual help and tooltips
- Critical operations (loan approval, account closing) shall require confirmation dialogs

5.5 Scalability

- System architecture shall support addition of new branches without major redesign
- Database shall handle up to 50,000 member records
- System shall support up to 500,000 transaction records per year

5.6 Maintainability

- System shall use modular architecture for easy updates
- Codebase shall be documented with inline comments
- System shall support configuration changes (interest rates, loan limits) without code changes
- Admin panel shall allow rate and policy configuration by authorized users

6. System Constraints

6.1 Technical Constraints

- System must run on standard web servers accessible via LAN/WAN connections at branch locations
- Must support modern web browsers without requiring special plugins
- Must integrate with existing Sri Lanka banking standards for co-operative societies
- Must comply with Central Bank of Sri Lanka regulations for co-operative banks

6.2 Business Constraints

- All existing manual forms must have digital equivalents in the system
- System must produce printable versions of all regulated forms (pawn tickets, FD certificates, loan agreements)
- Loan approval workflows must mirror existing regulatory approval chains
- Interest rate changes must be configured by authorized personnel only

6.3 Regulatory Constraints

- System must comply with Co-operative Societies Act of Sri Lanka
- Pawn operations must comply with Section 85 of the Mortgage Act
- Member data must be handled in accordance with data protection principles
- Financial records must be retained for a minimum of 7 years

7. External Interface Requirements

7.1 User Interfaces

- Web-based dashboard with separate views for each user role
- Member-facing portal (optional phase 2) for checking balances and loan status
- Mobile-responsive design for access from tablets
- Passbook printing interface compatible with standard passbook printers
- Pawn ticket printing interface for receipt-format tickets

7.2 Hardware Interfaces

- Compatible with standard laser/inkjet printers for form and report printing
- Compatible with passbook printers (dot matrix)
- Receipt printer support for transaction receipts
- Weighing scale interface (optional) for gold weight integration

7.3 Software Interfaces

- Database: PostgreSQL or MySQL
- Operating System: Linux server (Ubuntu)
- Email server integration for notifications and alerts
- Optional: SMS gateway for member transaction alerts
- Optional: Insurance company API integration for automated claim submission

8. Key Data Entities

8.1 Core Data Models

Entity	Key Attributes
Member	member_id, full_name, nic, dob, gender, address, phone, marital_status, branch_id, share_amount, status, join_date
Savings Account	account_id, member_id, account_number, account_type, balance, open_date, status, branch_id
Fixed Deposit	fd_id, member_id, fd_number, principal, interest_rate, term, start_date, maturity_date, status
Children's Account	account_id, guardian_member_id, child_name, child_dob, balance, eligible_withdrawal_date
Loan Application	loan_app_id, member_id, loan_type, amount, purpose, term, status, applied_date, branch_id
Loan	loan_id, loan_app_id, loan_number, amount_disbursed, interest_rate, start_date, maturity_date, outstanding_balance
Loan Repayment	repayment_id, loan_id, date, amount, principal_portion, interest_portion, balance_after
Guarantor	guarantor_id, loan_app_id, member_id, name, nic, address, relationship
Pawn Ticket	pawn_id, ticket_number, member_id, article_desc, gross_weight, net_weight, value, advance, interest_rate, issue_date, status
Transaction	txn_id, account_id, type, amount, date, teller_id, reference, balance_after
Branch	branch_id, name, address, manager_id, contact
User	user_id, branch_id, username, password_hash, role, status, last_login

9. Appendices

9.1 Loan Interest Calculation Examples

Example 1: Standard Daily Interest Formula

Formula: $\text{Interest} = (\text{Principal} \times \text{Days} \times \text{Rate}) \div 36,500$

Principal (Rs.)	Days	Rate (%)	Interest (Rs.)
100,000	30	25%	2,055
97,200	25	25%	1,664
100,000	59 (group)	25%	4,041

Example 2: Loan EMI Calculation

For a Rs. 100,000 loan over 36 months:

- Monthly Principal = $100,000 \div 36 = \text{Rs. } 2,778$
- Monthly Interest = $(100,000 \times 25 \times 30) \div 36,500 \approx \text{Rs. } 2,055$
- Total EMI $\approx \text{Rs. } 4,833$

Example 3: Group Loan (2 months, 2 groups)

Group 01: 31 members, Group 02: 28 members = 59 members total

- Interest period: 2 months
- Interest: $100,000 \times 59 \times 25 \div 36,500 = \text{Rs. } 4,041$
- Loan period charges for 2 months: $\text{Rs. } 5,600 (2 \times 2,800)$
- Total: $5,600 + 4,041 = \text{Rs. } 9,641$

9.2 Form Mapping (Manual to Digital)

Manual Form	Form Number	System Module
Fixed Deposit Application (Stira Thaanpath Illumeepatha)	1105	Fixed Deposit Module – FD Opening
Loan Application (Samupakara Gramiya Bankuwa)	1108	Loan Module – Application
Employee Emergency Loan (Sewaka Apada Rna)	–	Loan Module – Employee Loan
Guarantor Details Form	–	Loan Module – Guarantor
Guarantor Declaration (Apekaru Prakaashaya)	–	Loan Module – Guarantor Declaration
Loan Plan Application (Rna Yojana Illumeepatha)	–	Loan Module – Loan Application
Loan & Surety Debt Details	–	Loan Module – Asset Assessment
Co-op Rural Bank Pawn Ticket	698594 (series)	Pawning Module – Pawn Ticket
Money Withdrawal Regulations (14-point)	–	Savings Module – Withdrawal Rules
FD Certificate (Stira Thaanpath Book)	24531 (series)	FD Module – Certificate Issuance

මුදල් ඉතිරිකිරීමේ තැන්පත් ගිණුම් පිළිබඳ රෙගුලාසි (තනිව හෝ හවුල්ව හෝ)

1. මුදල් ඉතිරි කිරීමේ තැන්පත් ගිණුම් පිළිබඳ ව්‍යාපාරික කටයුතු කරන වේලාවල් සමිතිය විසින් ප්‍රසිද්ධ කර දක්වනු ලබන වේලාවල්ය.
2. මුදල් ඉතිරි කිරීමේ තැන්පත් ගිණුම් විවෘත කිරීම සඳහා එවන ඉල්ලුම්පත් සමිතිය විසින් සපයනු ලබන විශේෂ පෝරමවල ලියා සම්පූර්ණ කර භාර දිය යුතුය.
3. ඕනෑම ප්‍රමාණයක් දක්වා වැඩි මුදලක් තැන්පත් වශයෙන් භාර ගනු ලැබේ.
4. ගිණුම්කරුට ලැබෙන සෑම ණයක්ම දෙනු ලබන්නේ මෙම ගිණුමට බැර කිරීමෙනි.
5. සමිතිය සමග ගනුදෙනු කිරීමට ප්‍රතිඵලයක් වශයෙන් ලැබෙන සෑම ආදායමක්ම මෙම ගිණුමේ මාර්ගයෙන් සාමාජිකයාට අයිති කරනු ඇත.
6. මෙම ගිණුමෙන් සතියකට තෙවනාවක් මුදල් ආපසු ලබා ගත හැකිය. මෙයට හැර තවද හදිසි අවස්ථාවලදී බැංකු නියෝජිතයාගේ අවසරය පිට මුදල් ආපසු ලබා ගැනීමට පුළුවන.
7. දෙදෙනෙකුගේ හෝ ඊට වැඩි දෙනෙකුගේ හෝ නම්වලට හවුල්ව මුදල් තැන්පත් කළ හැකිය. මේ මුදල් ඒ දෙදෙනාට හෝ සියළුම දෙනාට හෝ ඒ අයවලුන්ගෙන් එක් කෙනෙකුට හෝ ඊට වැඩි දෙනෙකුට හෝ ඒ අය අතුරෙන් ජීවත්ව සිටින්නන්ට ආපසු ලබා ගත හැකිය.
8. ගිණුමක් විවෘත කිරීම සඳහා වුවමනා අඩුම ගණන රු ක් වේ. ඊට පසුව භාරගනු ලැබෙන අඩුම තැන්පත් මුදල ක් වේ.
රු වඩා ශේෂයක් නැති ගිණුමක් එම මුදල තැන්පත් කළ අයට එය ආපසු ගෙවා කවර වේලාවක වුවද සමිතියට එම ගිණුම වසා දැමිය හැක.
9. මුදල් ඉතිරි කිරීමේ තැන්පත් ගිණුම් මගින් වෙක්සන් එකතු කර මාරු කර ගත නොහැකිය.
10. අපේල් මස සිට ජුනි මස දක්වාද, ජුලි සිට සැප්තැම්බර් මස දක්වාද, ඔක්තෝම්බර් සිට දෙසැම්බර් මස දක්වාද, ජනවාරි සිට මාර්තු මස දක්වාද ඇති කාර්තු ඇතුළතදී පවත්වාගෙන ඉවු ලැබෙන අඩුම ශේෂයන්ට පොළී ගෙවනු ලැබේ.
11. තැන්පත් කරනු ලබන මුදල් හා ආපසු ගන්නා ලබන මුදල් සටහන් කරනු ලබන පාස් පොතක් එක් එක් මුදල් තැන්පත්කරන්නාට නොමිලේ සමිතිය සපයනවා ඇත. බැංකු නිලධාරියාගේ හෝ වගකිව යුතු නිලධාරියකුගේ කෙටි අත්සන රහිත පාස්පොතේ සටහන්ව ඇති කිසිම මුදලක් ගැන සමිතිය විසින් වගකීම භාරගනු නොලැබේ. මුදල් තැන්පත්කරන්නන් සමිතියෙන් පිටවී යාමට පෙර පාස්පොත පරීක්ෂා කර බලා එහි කර ඇති සටහන් නිවැරදි යැයි සැකිමකට පත්විය යුතුය.
12. කවර කෙනෙකු විසින් වුවද වංචනික වැඩක් හේතුවෙන් හෝ සිදුවී තිබුණේ වුවද එය නොසලකා පාස්පොතද මුදල් තැන්පත් කළ තැනැත්තාගේ යැයි අදහස් කරන අත්සන සහිත මුදල් ආපසු ලබා ගැනීමේ පෝරමයද ඉදිරිපත් කරන තැනැත්තෙකුට සමිතිය විසින් මුදල් ගෙවූ අවස්ථාවලදී ඒ සම්බන්ධයෙන් එම මුදල් තැන්පත් කර ඇති තැනැත්තා වෙත සියළුම වගකීම් චලිත් සමිතිය නිදහස් වේ.
13. පාස්පොතක් නැති වූ විට හෝ තරක් වූ විට හෝ ඊට හේතුව වශයෙන් සැකිමකට පත්විය හැකි කරුණුද සැහෙන වන්දියක්ද ඉදිරිපත් කළ විට සමිතියේ පොත්වල සඳහන් ගණන් හිලවී අනුව පිළියෙල කරන ලද අරන් පොතක් මුදල් තැන්පත් කළ අය වෙත සමිතිය නිකුත් කරනවා ඇත. මේ පාස්පොතේ සඳහන් ගණන් හිලවී මුදල් තැන්පත් කළ තැනැත්තා විසින් භාර ගත යුතුය. අවතෙත් පාස්පොතක් නිකුත් කිරීම සඳහා රු ක් ගාස්තුවක් අයකරනු ලැබේ.
14. කවර වේලාවක වුවද මේ රෙගුලාසි වෙනස් කිරීමටද ඊට වෙන රෙගුලාසි එකතු කිරීමටද ලිපි මසකට අඩු නොවන කාලයක් කල් ඇතුළු ප්‍රසිද්ධ ලෙස දැනුම් දී පොළී ප්‍රමාණය වෙනස් කිරීමටද බලය සමිතිය වෙත තබා ගනු ලැබේ. එසේ දැනුම් දුන් කාලය අවසානයේදී තමන්ගේ ගිණුමෙහි ශේෂව ඇති සම්පූර්ණ මුදල්, යම් මුදල් තැන්පත් කළ තැනැත්තෙකු ආපසු ලබාගෙන නොසිටියේ නම් ඉහත සඳහන් පරිදි වෙනස් කරන ලද හෝ සංශෝධනය කරන ලද හෝ රෙගුලාසි පිළිගැනීමටද ඊට යටත්ව කටයුතු කිරීමටද ඔහු එකඟවී සිටින්නෙකු වශයෙන් සලකනු ලැබේ.

9.3 Loan Type Summary

Loan Type	Max Amount	Max Term	Rate (approx.)	Special Rules
Normal Loan	Rs. 500,000	5 yrs / 60 mo	25%	2 guarantors
Small Loan	Rs. 200,000	3 yrs / 36 mo	25%	—

Loan Type	Max Amount	Max Term	Rate (approx.)	Special Rules
FD Loan	85% of FD	Per FD term	10.5%	FD as collateral
Employee Emergency	Per salary	Per agreement	Configurable	40% salary cap
Business Loan	Assessment-based	Per agreement	25%	Business proof
Pawning (Gold)	Assessed value	1 year max	13% p.a.	Gold as security
Social Loan	Variable	Variable	Configurable	Social purpose
MPCS Loan	Variable	Variable	Configurable	Society rules

9.4 System Development Phases (Recommended)

Phase 1 – Core Banking (Priority)

- Member registration and management
- Savings account (deposits, withdrawals, interest)
- Fixed deposit management
- Basic loan processing (application to disbursement)
- Loan repayment tracking
- User authentication and RBAC
- Daily reports

Phase 2 – Advanced Features

- Multi-branch linking and data consolidation
- Pawning module
- Loan approval workflow automation

- Children's savings account
- Insurance module
- Employee emergency loans

Phase 3 – Reporting & Integration

- Advanced financial reporting (balance sheet, P&L)
- SMS/email notification gateway
- Member self-service portal
- Mobile-responsive enhancements
- Audit trail and compliance reports
